

CCAC Municipal Solid Waste Initiative

“Mitigating short lived climate pollutants from the municipal solid waste sector”

Hotel Java Paragon, Mayjend Sungkono 101-103, Surabaya

23-24 February, 2014 – Surabaya, Indonesia

On the margins of the 5th Regional 3R Forum in Asia and the Pacific, 25-27 February 2014

This meeting of the CCAC Municipal Solid Waste (MSW) Initiative will bring cities and initiative partners together to strengthen international “on-the-ground” action on short-lived climate pollutants (SLCPs) from the MSW sector. In doing so, the meeting aims to enhance better understanding of CCAC MSW Initiative, foster city-to-city knowledge sharing, and deliver CCAC-led specific training to support city action. It is intended that the meeting will foster a supportive network of cities and partners in the Asian region and as well develop an Asian model for direct and on-the-ground action that the CCAC and new participating cities can carry out jointly.

Moderator: Ms. Ylva Engqvist (CCAC Secretariat)

Co-moderator: Dr. Jun Daito (Ministry of the Environment, Japan)

3.1. Introduction of Afternoon Session – CCAC tools and Key questions for discussion

Ms. Ylva Engqvist and Dr. Jun Daito

3.2. Breakout Groups (90 minutes)

- Part one of the breakout discussion will be centered on peer learning, framed by questions from the facilitators. This will not only allow for inter-city and inter-country information sharing, but also help shape the Asian component of the CCAC.
- Part two of the breakout discussion will focus on developing concrete action back home, from baseline studies to national strategies, and inter-city and inter-country relationship building.

1. How to identify sources and magnitude of SLCP emissions?

- a. Why collect data? What kind of data is typically hard to get?
- b. What are your experiences with improving data gathering?
- c. The City Assessment tool – will it work for you?
- d. Facilitators: Mr. Gary Crawford (ISWA), Ms. Swarupa Ganguli (US)
- e. Rapporteur: Ms. Marlene Sieck (Germany)

2. How to identify opportunities to reduce SLCP emissions?

- a. What are some key challenges to taking action? What is your experience?
- b. What are your best practices to identify opportunities for waste management improvements? And how do you get from planning to action?
- c. Work planning – how it can help.
- d. Facilitators: Mr. Chris Godlove (US), Ms. Nimmi Damodaran (Stratus Consulting)
- e. Rapporteur: Ricardo Cepeda (C40)

3. How to strengthen national policies to support local activities?

- a. What are your national waste policies and what are the linkages to climate change?
- b. How do you gain political will to make policy changes at the national level?
- c. National Strategies – what are your challenges and opportunities?
- d. Facilitators: Ms. Leila Surratt (CCAP), Ms. Jean Schwab (US EPA)
- e. Rapporteur: Ms. Hingman Leung (Canada)
