

MSW Webinar Series

Improving Collection Routes and Services

This is the second of a series of webinars that the Climate and Clean Air Coalition Initiative entitled “Mitigating SLCPs from the Municipal Solid Waste Sector” is producing to support capacity building in Municipal Solid Waste Management at the City and National Level.

Find out more about the CCAC MSW Initiative at <http://waste.ccac-knowledge.net/>

Part 1: Key Factors for a Successful MSW Collection Service

Monday 25th August

This webinar will highlight the benefits of an efficient collection service and provide participants with the theory and background as to what contributes to a successful collection service. The webinar will touch on topics such as waste data & waste streams; transport & equipment; different approaches (esp. low cost options), separate vs co-mingled vs mixed; logistics/transfer stations; management & operation (Public owned & operated; Private Public Partnership etc.); and parameters for economic assessment.

The webinar is aimed at participants who are relatively new to the topic of Waste Collection Services

English Language version: 10:00 - 11:30 Central European Time/ 15:00-16:30 Indochina Time
Spanish Language Version: 15:00-16:30 Central European Time/ 08:00-09:30 Central Standard Time

Part 2: Leading examples of MSW Collection Services around the World

Wednesday 24th September

This second webinar will provide more detail and information regarding the practical implementation of collection services (including costs). Case studies will be used to showcase different systems in operation around the world.

The webinar is aimed at participants who already have some understanding of Waste Collection Services

English Language version: 10:00 - 11:30 Central European Time/ 15:00-16:30 Indochina Time
Spanish Language Version: 15:00-16:30 Central European Time/ 08:00-09:30 Central Standard Time

ISWA is leading this webinar initiative on behalf of the
Climate and Clean Air Coalition to Reduce Short-Lived Climate Pollutants

Who Should Participate?

- Local government waste officers who are involved in setting policy and delivering services
- Policy makers in local and national government

Registration

There is no cost to participate in the Webinar however places are limited, so priority will be given to Cities and Governments participating in the CCAC MSW Initiative. To register please complete the accompanying registration form and return to iswa@iswa.org
