

MSW Webinar Series
transitioning from open dumps to sanitary landfills

This is the third of a series of webinars that the Climate and Clean Air Coalition Initiative entitled “Mitigating SLCPs from the Municipal Solid Waste Sector” is producing to support capacity building in Municipal Solid Waste Management at the City and National Level.

Find out more about the CCAC MSW Initiative at <http://waste.ccac-knowledge.net/>

Part 1: Closure and Rehabilitation of Open Dumps

13th November 2014

This webinar will provide guidance to Cities and Countries who are in the process of closing, rehabilitating or banning the use of dumps for waste disposal. The focus will be on how these sites can be best managed during operation and post closure to limit the impact on the environment and public health. The potential for capture of gas emissions from closed dumpsites will also be covered.

English Language version: 10:00 - 11:30 Central European Time/ 16:00-17:30 Indochina Time
Spanish Language Version: 15:00-16:30 Central European Time/ 08:00-09:30 Central Standard Time

Part 2: Establishing Sanitary Landfills

14th November 2014

This second webinar will provide advice and information regarding the key elements to consider when establishing sanitary landfills. Case-studies will be elaborated to highlight the issues that tend to arise during the process of transitioning to Sanitary Landfills. The Webinar will include factors such as siting, costs, policy, management and operation.

English Language version: 10:00 - 11:30 Central European Time/ 16:00-17:30 Indochina Time
Spanish Language Version: 15:00-16:30 Central European Time/ 08:00-09:30 Central Standard Time

ISWA is leading this webinar initiative on behalf of the
Climate and Clean Air Coalition to Reduce Short-Lived Climate Pollutants

Who Should Participate?

- Local government waste officers who are involved in setting policy and delivering services
- Policy makers in local and national government

Registration

There is no cost to participate in the Webinar however places are limited, so priority will be given to Cities and Governments participating in the CCAC MSW Initiative. To register please complete the accompanying registration form and return to iswa@iswa.org

About the Presenters

Luis Marinheiro is the Chair of the ISWA Working Group on Landfill, he has been working in both the public and private sectors in waste management for well over 15 years.

Derek Greedy is the former chair of the Working Group on Landfill. He has worked in the waste management industry since 1975. Derek has had regulatory, operational and technical experience in both the public and private sectors.

Fernando Calvo Redruejo is a Professor Subject of Sanitary Engineering, School of Civil Engineering and Ports of the University Alfonso El Sabio in Madrid. He has been involved in numerous Landfilling projects in Spain and Latin America
